Nothing to compare in point of magnitude with the big Hippodrome show, which comes to the Shubert Masonic theater, Louisville, on Monday evening. December 19, for four days, with matinees on Tuesday, Wednesday and Thursday, has never before been seen in Kentucky. Six hundred people are on the pay-roll of this attraction, not counting a ers and the general working force that must be carried along in order A GIFT FOR FATHER, MOTHER, to manipulate the tremendous thetacular shows are included in the program, not to mention a tribe of In order to avoid the crushing real Indians, a gang of cowboys, likewise circus performers, singers, dancers and clowns, headed by the world famous Marceline. The three spectacles are entitled "Pioneer Days," "The Ballet of Jewels" and 'A Trip to Japan." The first of these is a scenic melodrama, in which the Indians and cowboys are introduced to the great delight of the youngsters in the audience Then follows the bewilderingly beautiful "Ballet of Jewels," introduc ing hundreds of gorgeously clad corypheses, each one representing a jewel, the ensemble effect being sufficiently scintillant to gorge with color the most critical eye. At the head of the ballet is Mlle. Vera Sabina, a young and beautiful premiere danseuse. The third and last of the spectacles is "A Trip to Japan." During the circus scene in this part of the show, the midget performers are introduced. Marceline adds his merry quips and jests well as his acrobatic specialty and the scenic features are superb Worthy of particular note is the departure of the giant ocean liner from the dock, the gorgeous fete of the chrysanthemums in the Garden of the Mikado of Japan and the feast of 10,000 lanterns. There are but a few of the tremendous features of a show which must be seen to be appreciated. Stage Director H. H. Burnside wrote the big performance, which owes its invention and sceniproduction to Arthur Voegtlin, and its lyrics and musical composition Mr. Manuel Klein. Prices for night performances will range from 25c to \$1.50 and matinees 25c to

The finding of the court of appeals in a case from Newport that bond issues by school boards in cities of the second class shall not be considered in determining when the city has reached the constitutiona limit of its authority to issue public improvement bonds, is of great in terest to Paducah in relation to a prospective bond issue for the pur pose of erecting new schools, some thing that cannot be deferred much longer, unless some other means for raising the necessary funds is adopted. Cities of the second class are limited to a bond issue equal to ten per cent of the assessed valuation of property subject to taxation. medicine from a doctor, but it did not do any good. In about a week the tetter began to break out on her arm too. She used five or six different kinds of salves. Not one of these did her a particle of good. Her hand and arm would burn and itch so much that she could hardly sleep at night. Her hand was that way for about eleven months. Finally a friend of ours recommended Cuticura Soap and Ointment to us. She bought some immediately and began to use it. She washed her hand and arm with Cuticura Soap and warm water. Then she applied the Cuticura Ointment and bandaged her hand up. The next morning we all noticed a great improvement. Before she had used a half of a box of Ointment and a very little Soap her hand was completely cured. Now her hand is as well as ever. I think Cuticura Soap and Ointment is the greatest skin remedy ever discovered. C. E. Canady, San Leandro, Cal., Mar. 7, 1910."
